

标本采集容器 Specimen Collection Containers

▶ 唾液采集器 Saliva Collector

产品用途 (Usages)

用于唾液的采集保存和运输。

唾液是一种复杂的混合物，不仅含有各种蛋白质，还含有DNA、RNA、脂肪酸以及各种微生物等。研究发现，血液中的各种蛋白质成分同样存在于唾液中，唾液能反映出血液中各种蛋白质水平的变化。因此，就有可能通过唾液的检测来进行疾病的诊断。进行基因检测及分析。

Used for collection; storage and transportation of saliva.

Saliva is a complex mixture, it contains not only a variety of proteins, but also DNA, RNA, fatty acids and a variety of microorganisms, etc. The research found that the variety of proteins in blood is also in saliva, the saliva can reflect the variation of various protein levels in the blood. Therefore, it is possible to diagnose the disease, analyze gene through detection of saliva.

» 唾液采集器 (A型) Saliva Collector (Type A)

材质/Material	唾液量/Saliva	添加剂/Additive	包装/Packaging
PP (聚丙烯)	2ml	保存液/Preservative solution	独立包装/Individual

» 唾液采集器 (B型) Saliva Collector (Type B)

材质/Material	唾液量/Saliva	添加剂/Additive	包装/Packaging
PP/PET	2ml	保存液/Preservative solution	独立包装/Individual

» 唾液采集器 (C1型) Saliva Collector (Type C1)

材质/Material	唾液量/Saliva	添加剂/Additive	包装/Packaging
PP (聚丙烯)	2ml	保存液/Preservative solution	独立包装/Individual

» 唾液采集器 (C2型) Saliva Collector (Type C2)

材质/Material	唾液量/Saliva	添加剂/Additive	包装/Packaging
PP (聚丙烯)	2ml	保存液/Preservative solution	独立包装/Individual

痰液采集器 Sputum Collector

用于痰液的采集保存。

进口PP材料、高透明度、能直接观察到标本颜色，密封螺旋盖有利于传递及保持标本较长时间的新鲜而不影响检测结果的准确性。

Used for collection and preservation of sputum.

Imported PP material, high transparency, can observe specimen color directly sealed screw cover, advantageous to transfer of specimens and keep fresh for a long time, without affecting accuracy of detection result.

规格/Tube Size (ml)	包装/Package
30ml	独立包装/Individual
40ml	独立包装/Individual
60ml	独立包装/Individual

口腔粘膜采集器 Oral Mucosa Collector

用于采集保存口腔粘膜细胞。

Used for collection and preservation of oral mucosal cell.

产品组成/Composition	特点/Feature
收集管、采样拭子、帽盖/ Collection Tube, Swab and Cap	尼龙植绒拭子最大程度增加标本的采集与释放量/ Nylon flocking swab can maximize quantity of specimen collection and release

采样拭子 Sampling Swab

用于采集人体自然腔道，如鼻腔、口腔、阴道、尿道口等部位沾取生物样本供下游分析检测。

Used for collection at natural body cavity, such as nasal, mouth, vagina, urethral orifice and other parts, biological sample for following analysis.

宫颈细胞刷 Cervical Cells Brush

用于女性宫颈脱落细胞的采集。

Used for collection of female cervical exfoliated cells.

» **尿液采集器** Urine Collector

用于尿液的采集，由尿液收集杯和尿液采集管组成。
Urine collector includes: urine collection cup and urine collection tube.

产品组成/Composition	规格/Volume	材质/Material
尿液采集管/Urine Collection Tube	8ml	PET
尿液收集杯/Urine Collection Cup	120ml	PP

粪便采集器
Stool Collector

用于采集粪便标本。
Used for collection of stool specimen.

» **粪便采集器 (A型)** Stool Collector (Type A)

» **粪便采集器 (B型)** Stool Collector (Type B)

» **粪便采集器 (C型)** Stool Collector (Type C)
